

PASSWORD RESET GUIDE

Adsparkx Customer Support

OVERVIEW

If you forgot your password or suspect unauthorized access, follow this guide to securely reset your Adsparkx account credentials.

METHOD 1: SELF-SERVICE RESET

1. Go to <https://app.adsparkx.io/login>
2. Click "Forgot Password?"
3. Enter the email address associated with your account
4. Check your inbox for a reset link (expires in 60 minutes)
5. Click the link and create a new password meeting security requirements:
 - Minimum 12 characters
 - Uppercase, lowercase, number, and symbol required
6. Log in with your new password

METHOD 2: ADMIN-ASSISTED RESET (Enterprise)

Enterprise admins can force a password reset from Admin > Team > Select User > Reset Password. The user receives an email with a temporary link valid for 24 hours.

METHOD 3: ACCOUNT RECOVERY WITHOUT EMAIL ACCESS

If you no longer have access to your registered email:

1. Contact support@adsparkx.io from a company domain email
2. Provide: full name, account ID, last four digits of payment method
3. Complete identity verification (24-48 hour processing)
4. A support agent will initiate a secure recovery workflow

TROUBLESHOOTING

- Reset email not received: Check spam/junk folders and email filters
- Link expired: Request a new reset from the login page
- "Invalid token" error: Ensure you are using the most recent reset email
- SSO users: Password reset applies only to local accounts; use your IdP for SSO login

SECURITY RECOMMENDATIONS

After resetting your password:

- Enable two-factor authentication (Account > Security > 2FA)
- Revoke unused API keys (Dashboard > Settings > API Keys)
- Review active sessions and sign out unknown devices

For urgent security concerns, email security@adsparkx.io immediately.
